

## **LUCY HADDATH      ACADEMIC OFFICER 2020/21**

### **ELECTION MANIFESTO 2020**

Hi my name is Lucy Haddath and I am in the final year of my BSc (Hons) Zoology degree. Throughout my time at university I have played an active role within the community.

I helped found the Zoology society to bring together students belonging to all years of the course. I have been the course representative for the last four years voicing the concerns and praises of the students within my academic year, learning how to incorporate change and make a real difference for my course. Finally, I had the privilege of being the Science and Outdoor studies representative from 2018 to 2019, a role that allowed me to take my passion for helping others to the next level.

I would be honoured if you voted for me to become your academic officer and allow me to take this experience and strive to make real change in your academic wellbeing.

If successful I will:

- Provide more support for Student Representatives, giving them the tools and guidance they need to make a positive difference to your course.
- Push for more collaboration between year groups to allow first and second years to learn from the experience of students who have been there before.
- Put on a programme of assessment support workshops (with tea and biscuits) so you can aim for the highest possible marks throughout your degree.
- Prepare you for graduation by raising awareness of career opportunities in your chosen field, and perhaps running career fairs across campuses to allow you to network with potential employers.

So vote for Lucy Haddath as your next Academic Officer if you want these positive and exciting changes to happen!
